**TARIFF FORMAT**

- A. Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.
- B. Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of various suspension periods, deferrals, etc., the most current page number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the page currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
  - 2.1.
  - 2.1.1.
  - 2.1.1.A.
  - 2.1.1.A.1.
  - 2.1.1.A.1.(a).
  - 2.1.1.A.1.(a).I.
  - 2.1.1.A.1.(a).I.(i).
  - 2.1.1.A.1.(a).I.(i).(1).
- D. Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages). The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

**SECTION 2 - RULES AND REGULATIONS, (CONT'D.)****2.7 Taxes, Surcharges and Utility Fees, (Cont'd.)****2.7.4 Public Telephone Surcharge**

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access The Company service and is unrelated to the Company service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the A#@symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

**SECTION 2 - RULES AND REGULATIONS, (CONT'D.)****2.8 Obligations of the Aggregator**

When service is provided to the transient public through an Aggregator, the Aggregator must post on or near the telephone instrument in plain view of Consumers:

- (A) name, address and toll-free telephone number of Operator Service Company;
- (B) a written disclosure that the rates for all operator-assisted calls are available on request, and that Consumers have a right to obtain access to the interstate common carrier of their choice and may contact their preferred interstate common carriers for information on accessing that carrier's service using that telephone; and
- (C) the name and address of the enforcement division of the Common Carrier Bureau of the FCC, to which the Consumer may direct complaints regarding operator services.

Aggregators must ensure that each of its telephones pre-subscribed to Operator Service Company allows the Consumer to use "800," "950," and 10XXX (where feasible) access code numbers to obtain access to the provider of operator services desired by the Consumer.

No charge by the Aggregator to the Consumer for using an "800" or "950" access code number, or any other access code number, may be greater than the amount the aggregator charges for calls placed using the pre-subscribed provider of operator services (Operator Service Company.)

Aggregators must comply with any access requirements or rules that the FCC sets forth.

**SECTION 2 - RULES AND REGULATIONS, (CONT'D.)****2.9 Refunds or Credits for Service Outages or Deficiencies****2.9.1 Interruption of Service**

Credit allowances for interruptions of service which are not due to the Company's testing or adjusting, to the negligence of the Customer, or to the failure of channels, equipment or communications systems provided by the Customer, are subject to the general liability provisions set forth in Section 2.5 herein. It shall be the obligation of the Customer to notify the Company immediately of any interruption in service for which a credit allowance is desired by Customer. Before giving such notice, the Customer shall ascertain that the trouble is not within his or her control, or is not in wiring or equipment, if any, furnished by the Customer and connected to the Company's terminal. Interruptions caused by Customer-provided or Company-provided automatic dialing equipment are not deemed an interruption of service as defined herein since the Customer has the option of using the long distance network via local exchange company access.

Credit allowances for interruptions of service billed on a usage basis shall be limited to the rate applicable to the initial period of the call to compensate for re-establishment of the connection.

**2.9.2 Inspection, Testing and Adjustment**

Upon reasonable notice, the facilities provided by the Company shall be made available to the Company for such tests and adjustments as may be deemed necessary for maintenance in a condition satisfactory to the Company. No interruption allowance will be granted for the time during which such tests and adjustments are made.

**SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)****3.2 Timing of Calls**

Billing for calls placed over the Custom Teleconnect network is based in part on the duration of the call as follows, unless otherwise specified in this tariff:

- 3.2.1** Timing of each call begins when the called station is answered (i.e. when two-way communications are established). Answer detection is based on standard industry answer detection methods, including hardware and software answer detection.
- 3.2.2** Chargeable time for calls ends when one of the parties disconnects from the call.
- 3.2.3** The initial and additional billing increments are stated in the description of the service.
- 3.2.4** The Company will not knowingly bill for unanswered calls. When a Customer indicates that he/she was billed for an incomplete call, the Company will reasonably issue credit for the call.

**3.3 Rate Periods**

**SECTION 3 - SERVICE DESCRIPTIONS AND RATES, (CONT'D.)****3.5 Operator Assisted Calling**

Operator Assisted Calling is available for use by transient end users from Aggregator locations. Calls are billed in two increments. The first is a usage increment in which charges accrue based on duration of the call. The second is a per call component reflecting the level of operator assistance and billing method.

Calls may be originated via traditional operator services access (0+ or 0-) or via a Company-designated access number. (N)

The Company offers many operator service rate plans depending upon the needs of a particular Aggregator location. The types of calls handled are as follows: (N)

Calling Card Calls - This option allows a Customer to bill the call to an authorized Calling Card or Commercial Credit Card. For calls made using a telephone company card, acceptance of the card will be dependent upon the Company's ability to verify the card as valid. Only those cards accepted by the Company may be used for Operator Services.

Collect Calls - This option enables a call to be billed to the called number, provided that the called station accepts responsibility for payment of charges. Collect calls may be station-to-station and therefore accepted by any party at the called location or Person-to-Person where a specific party is requested at the called party and charges can only be accepted by the requested party.

Third Party Billed Calls - this option allows a called to be billed to a number other than the originating or terminating telephone number. The Company reserves the right to verify acceptance of charges prior to billing charges to a third party number.

Person-to-Person - This charge applies in addition to usage charges for calls placed with the assistance of a Company operator to a particular party at the destination number. This charge applies regardless of billing method, including but not limited to billing to a Calling Card, Commercial Credit Card, Collect, by deposit of coins in Pay Telephones, or to a Third Party. Charges do not apply unless the specified party or an acceptable substitute is available.
